1 (U) A country or region which has obtained full certification has been designated by the Commission as a foreign country, etc. having a system of protecting personal information, which is recognized to be of the same level of protection as Japan: A system for protecting personal information of EU (Iceland Norway, Liechtenstein, which is a part of a member of the Pacific Ocean member country and the Pacific Economic Area) that the Commission has decided to have the full level of protection data based on a GDPR or its pre-bodily protection directives, that the commission has decided to have the full level of protection data; and therefore, a general protection of personal information that is equivalent to those of Japan can be expected. In this meaning, the fact that it is a country or region that has obtained fully accreditation of EU is categorized as that which corresponds to "information that can be an index of a system concerning the protection of personal information."

2 APEC is prescribed as assuming that APEC for CBPR System Participation possesses laws and regulations based on APEC Private Framework, and that it has the authority of investigation and rectification when it cannot be resolved or rectify problems through CBPR certified business operators or Accounting Agents. As a result, the same APEC as Japan is a participant in CBPR system, since it is considered that Ecomouse has laws and regulations based on APEC Private Frameworks and an executive agency that executes those laws and regulations can be considered to be subject to APEC Private Framework, and accordingly protecting personal information as is expected to be equivalent to those of Japan. In this circumstance, CBPR system participation economy is categorized as "information that can be an index of a system concerning the protection of personal information". In APEC of an CBPR system, the subject of it shall be a private sector.

3 OECD Guideline 8 Principles plays a role in the fundamental principles which are referenced not only in OECD member states but also in efforts to protect personal information internationally, and are used by each country as a global standard in developing a personal information protection system.

	⑤ Security Safeguards Principle.	Partial provision of the Cybersecurity Act, the Information Technology Act and other Acts (1) The provisions are established.	
	⑥ Principle of Public Disclosure	The particulars stipulated in the Cyberinformation Security Act and other Acts The person is.	
	⑦ Individual Participation Principle	Partial provision of the Cybersecurity Act, the Information Technology Act and other Acts (1) The provisions are established.	
	⑧ Principle of responsibility	The applicable provisions are unjustifiable.

[Matters to Be Considered]

- Article 28 The purpose of paragraph (2) of the Act on the Protection of Personal Information (Act No. 57 of 2003) (hereinafter referred to as the "Personal Information Protection Act") includes the point that will enhance the likelihood of identification with regard to the risks associated with the provision of personal data to a third party in a foreign country, as well as a point that is encouraging enterprises in a foreign country to provide personal data to a third party in the foreign country to recognize their business environment beyond prior and prior to the fact. In addition, the specific content of information to be provided by Entrepreneurs to their principal pursuant to the provisions of the preceding paragraph may differ depending on the case of each individual case. Examination of the system regarding the protection of personal information in foreign countries shall be carried out on the responsibility of a business operator providing personal data to a third party in the foreign country, and reference information in the said matter provided by the Commission shall be referred to as a supplementary information until otherwise.
- The above Reference Information provided by the Commission is based on the results of "Investigation of the System Concerning the Protection of Personal Information in a Foreign State, etc." conducted by the Commission.

Pursuant to the information conducted in 2021, the investigation shall be based on as of the end of October. From that point of time following the said point of time, due to the revision of a system regarding the protection of personal information, etc. in a foreign country, there is a possibility that there is a change in the content of information that a business operator in a foreign country provides personal data to a principal.

- Reference Information provided by the Commission is based on the results of "Investigation into the System for the Protection of Personal Information in Foreign States" and is limited to laws and regulations subject to the investigation from the viewpoint of the followings, and is not always a registry. When a business operator that provides personal data to a third party in a foreign country possesses information other than the above-mentioned reference information, it is necessary to provide such information to the individual in accordance with Article 28, Paragraph 2 of the Personal Information Protection Act and Article 17, Paragraph 2 of the Enforcement Regulations of the Act on the Protection of Personal Information (Personal Information Protection Committee Regulations No. 3 of 2016).
  - (for laws and regulations referred to in the preceding paragraph, the subjects of the investigation are those listed by which the entrusted business operator or re-entrusted business operator who engages in the investigation is a representative person;
    - Laws and Regulations on the Protection of Personal Information Applied to Individual Fields in a Foreign Country Without Comprehensive Laws and Regulations Concerning the Protection of Personal Information
    - Laws and Regulations Concerning Systems Relating to Obligations to Preserve Personal Information in the Area
    - Laws and regulations concerning the system that imposes on business operators the obligation to cooperate in information collection activities
  - With regard to laws and regulations concerning systems to impose on companies the obligation to cooperate in government information collecting activities, those systems are required to provide a business with personal information access to information held by a foreign government for the purpose of enforcing the Criminal Code or either or both of the National Security Purposes of making it compulsory for the business to provide personal information to a foreign government under the laws and regulations.
